Buy-in to proceed with 'centre of excellence' process obtained?	The council management were introduced to the COE process and they were taken through the ten stages of the process. It appeared that almost all of them were not aware of the COE process. The COE pamphlet was used to demonstrate the process. The conclusion was therefore reached that the council will activate the COE process as it had been dormant since 2004 and therefore permission to conduct situational analysis was granted.
Access to conduct a situation analysis obtained?	The management of the council highly welcome the COE process and they pledged their commitment towards gender mainstreaming. They said that it appeared they have been doing gender work subconsciously. They said by being part of the process will help them to actively participate in gender issues and also to consider community activities related to promoting gender within the council, but most importantly to empower and promote women participation in governance. The score card was discussed and scores were given together with management to measure the stance of the council in terms of gender mainstreaming activities.
