

LILALA COUNCIL STAGE TWO REPORT

Date: 10/02/2015

Place: Lilala Council

District: Maseru

SITUATIONAL ANALYSIS

| | |
|--|---|
| Name of municipality: Lilala community council Why does this council have an interest in developing a gender policy? | Lilala Council will be the fifth council to be working with Gender Links in the district of Maseru. The council has heard about the COE process from the other councils that are already part of the process within the district. They have been doing a lot of work with many organisations related to gender but have never been able to document the work or have a guiding tool such as the gender policy. The gender policy is therefore going to be a very useful tool to guide their work. |
| Strengths | The council heard about the process of COE from the neighbouring councils and as such has the opportunity to be mentored into the process by those councils. The spirit of competition that the council has will also help the council to do their work with passion. The management of the council is also very interested in the process and prepared to promote gender equality in any way and this will make the COE process go smoothly as all the decision makings will be the agreed ones. |
| Challenges | Like many councils in Lesotho one of the biggest challenges would be of the budget lines as they do not cater for any gender activities and for the fact that all decisions have to be taken to district council this could possibly slow the process. |
